

ABSTRACT

Main Content of this Work is to describe in detail Part of political Trials in Czechoslovakia during the first Part of 1950's, focused against political Opponents coming from Czechoslovak People's Party (ČSL) or Roman Catholic. The Topic – political Trial with „Leaders of illegal anti-state Group Christian-Democratic Party (KDS)“ in 1955 and related Trials – is almost unprocessed. The Goal of this Work is to sketch long-lasting „crusade“, managed by the communist Power, against „virtual political Entity KDS“. This „crusade“ should culminate by public political Trial with Leaders of KDS. I'd like to focus on Secret state Police (StB) and its searching of Leaders of KDS, showing the Mechanism of anti-state Groups' Construction too. During the final Part I'd like to show continuance of struggle against other Groups of KDS after the Year 1955 until 1960's and introduce real activities of KDS' Leaders.
