

My work deals with the activity of Educational Care Centre Klíčov - PONTIS, which is residential section of preventive education for children and youth with behavioural disorders. It is the section 1 work as an educational worker assistant with specialization in sporting activities. The first part of my work, consisting of 3 chapters contains some basic facts and concepts connecting with social, psychological and behavioural disorders of our clients, with social-educational activity in general and also with the position of Educational Care Centers in the social support, care and education system. In the second part, consisting of 7 chapters I deal with the factual aims and with the educational system of our Centre. I also deal with the problems and questions the persons (workers and clients) in our Centre are confronted most often with.
