Student worked independently with mentor help.

Problems and issues were solved independently.

Work in the lab was not available, literature review.

Results interpretation correct with no corrections.

Processing of thesis was correct with mentor corrections.

Graphical processing for the thesis excellent.

Mentor comments to thesis and student approach:

Ricarda turned out to be a very talented and hard-working student . She chose to work on her thesis in a multidisciplinary team of clinicians and researchers at a Swiss pharmacovigilance centre where she was able to expend her knowledge and skills in pharmacovigilance. I appreciated Ricarda's positive attitude towards life and work as well as possession of excellent communication skills which made her a great team player and a pleasant person to work with.

Evaluation of diploma thesis: excellent, to defense: recommended

In Hradec Kralove 14.9.2015
