

Title: Tutoring of elementary school pupils outside school

Summary:

The diploma thesis provides complex analysis of pilot of National library focused on supporting pupils of elementary school with preparation for school tasks. Within the first part thesis is focused on methods of out of school tutoring in Czech Republic. Subsequently I have monitored the participation of pilot's volunteers within Municipal library in Prague - Bohnice and their interaction with pupils. Thesis describes individual approaches of particular tutors and try to identify drawbacks and finally evaluate ideal approach.

Key words:
