

Abstract

Title: Use of games in nature while canoeing school courses.

Objectives: The aim of this work is to create a collection of games usable on school boating courses. This is connected with other subtasks. Studying Czech and foreign literature and writing the most important knowledges related to water tourism and games. And last but not least, approach to the possibility of using games on board.

Methods: The work character is research. Its purpose is to gather and organize information about the games in nature, water tourism, and combinations thereof. The following is a logical and structured overview of information ready for any further elaboration and extension.

Results: The result is a collection of games usable at school canoeing courses lined up from games to a dry land, through peaceful water, gently flowing water to flowing water. I begin teaching basic skills and training stability on boats up to more challenging exercises and games for the more experienced.

Keywords: Games and exercises, water tourism, canoe, raft, children
