

Abstract

Title: Competency profile of a Street Dance coach

Objectives: The aim of this work is to find the key competencies and needs for the profile of a Street dance coach. The competencies are discovered through questions given to dance students and trainers. The benefit of this work should be seen during the selection of the dance trainers.

Methods: The research is made from quantitative methods and interviews. The interviews of the dance students and trainers were made through an electronic questionnaire. The respondents were addressed on the social media. The theoretical part of the thesis comes from the studied professional literature, internet sites and personal experience.

Results: We found out which are the key competencies that a trainer should have. Based on the results of the research we choose the 12 most important competencies of a street dance trainer, which were valorised thanks to the weighted average and split by importance.

Keywords: Dance, Street Dance, Coach, Competence
