Abstract

The diploma thesis concerns with the waste hierarchy in respect to the waste electrical and electronic equipment (WEEE). The subject-matter of this thesis is to analyze the legal regulations set forth in both EU and Czech law. The main acts are Directive 2012/19/EU on waste electrical and electronic equipment and the Waste Act No. 185/2001 Coll. The crucial parts of this thesis are the part 3 and 4 focusing on the legal regulation of persons and entities which shall procure the management of WEEE and on life-cycle of the electrical and electronic equipment.
