Pracovní spokojenost učitelů  
středních a vyšších policejních škol  
Ministerstva vnitra České republiky  
Jiří Baudyš

The thesis focuses on job satisfaction among teachers of Secondary Police Schools and Police Colleges of the Ministry of the Interior of the Czech Republic. Attention is devoted to theoretical concepts of job satisfaction and motivation, along with job satisfaction in psychological and performance-related context and surveys on teachers' job satisfaction. The empirical investigation is based on the theories of work motivation and research into teachers' job satisfaction. Quantitative assessment of job satisfaction among the teachers of Secondary Police Schools and Police Colleges of the Ministry of the Interior of the Czech Republic is conducted with the use of the Teachers' Satisfaction Assessment Inventory in order to evaluate the teachers' overall job satisfaction and its relation to selected variables, especially of extrapersonal character.
