

Thesis work WORLD OF ASYMMETRICAL RESPONSIBILITY develops the original racial concept concentrated on human existence, which was broken by the FACE OF THE OTHER MAN by Levinas. Using analogy we take human FACE AS THE CENTER OF MAN, his body center. The FACE moves forward and has a never ending range. Its potency and vital power calls for further research. Rule of law of asymmetrical responsibility standing for THE OTHER MAN and everyone with a character of unique choice are covered in this thesis work. The contribution into philosophy of education will be seen in restoration of original conception of theoria. Novum to asymmetrical responsibility and its origin are touching the conscious practice deriving from universal FACE. Nameless universal FACES with their own seals form the WORLD OF ASYMMETRICAL RESPONSIBILITY. Life in it in a way of eternity receives and gives immediately the CENTER of neverending row of human looks of FACES with irreplaceable destination in saving human life.
