

ABSTRACT:

The purpose of this diploma work is to evaluate the work of teaching assistants in supporting the study of convicts with disabilities in the Vocational School in Vinařice Prison. The partial aim of this diploma work is to determine whether the teaching assistants are providing enough support to pupils with disabilities in the level of support that will lead to better learning results and also would enable students to succeed at the open labor market. Diploma work will be divided into the theoretical part and the practical part. The practical part will be elaborated by quantitative and qualitative research methods. Quantitative research will be conducted through a questionnaire, which will be focused on support which is provided by teaching assistants while working with students with disabilities and then on the perception on teaching assistants support that is provided to students with disabilities. Qualitative research will include case studies of pupils - convicts with disabilities in the Vocational School Vinařice.
