

## **ABSTRACT**

### *TITLE:*

Summer cross biathlon

Letní krosový biatlon

### *OBJECTIVE:*

To create a comprehensive summary of summer cross biathlons and describe selected issues thereof by means of an analysis of currently available data.

### *METHODS:*

The following methods were used during the analysis:

1. acquisition of information, research and experience from currently available data
2. analysis and assortment of acquired data
3. creation of a final summary with regard to the research findings, which should be used in the dissertation.

### *RESULTS:*

An in-depth summary on summer cross biathlons was created. Accordingly, the thesis comprehensively describes the progress and rise in popularity of summer cross biathlons throughout the world and in the Czech Republic as well as the sport's rules, system of competition, important races, equipment and background.

### *KEYWORDS:*

Summer cross biathlon, progress, rules, competitions, equipment, background.
