

ABSTRACT OF THE THESIS

Author: Bc. Anna Hrudková

The diploma thesis deals with the topic The impact of changes in school legislation on management of pre-primary education. The theoretical part deals with the explanation and definition of concepts in the field of management, management of educational institutions (pre-primary education) and school legislation and its amendments. In the practical part, the work deals with the analysis of the collected data from the questionnaire, data were collected from the directors of nursery schools in the Central Bohemia organized by the municipalities. There is a correlation between changes in educational legislation and changes in the workload of nursery school directors and the functioning of these schools. The aim of my final thesis is to find out whether the current changes in school legislation (focusing on pre-primary education) have a significant impact on the management of kindergartens, how and in what areas the impact of these novelties was influenced. The conclusion of the diploma thesis is the evaluation of the collected data and the proposal of the institution dealing with the legislation of education.
