

Abstract

Title: Development and current status of special unit of the Fire Rescue Service of the Czech Fire Brigade.

Objective: The aim of this work is to get a detailed overview of the development and the current functioning of the Rescue Service of the Czech Fire Brigade. Another aim is to analyze the individual rescue units of the Rescue Service of the Czech Fire Brigade with a focus on their professional training, specialization courses, organizational structure, firefighting machinery, tasks and activities including rescue and liquidation services in the events of major emergencies from 2009 to the present.

Methods: The theoretical part will be drawn up on the basis of a study of printed and electronic sources related to the topic. It will be focused on the history and development of the Rescue Service of the Czech Fire Brigade, organizational structure, tasks, focus and actions, education system and firefighting machinery to the extent that will provide support for the practical part of the work.

The practical part will deal with the analysis of selected rescue teams and the specialized team of the Rescue Service of the Czech Fire Brigade. The internal and public sources will be the basis for the examination of their professional training. The organizational structure will be verified by local survey and interviews and will be illustrated in the diagram. Uncertainties will be consulted with a competent person from the commanding positions of the Rescue Service of the Czech Fire Brigade (method – questioning, form – interview). An overview of their actions will be discussed in detail and the results will be illustrated in graphs. The analysis will be completed by comparison of the monitored data. The results of the thesis will be mentioned at the end of the diploma thesis.

Results: The result of this work is a detailed overview of the functioning of the Rescue Service of the Czech Fire Brigade. The analysis of the collected data on the actions of this department suggests that this unit has a great contribution to the events of major emergencies both in the Czech Republic and abroad.

Keywords: Development, state, units, department, rescue.
