

Annotation

The diploma thesis is focused on highly gifted pupils. The objective of the thesis, which is based on the case studies, is to present the specifics of the inclusive measures used to support gifted pupils in elementary schools. Information from the interviews with pupils, their families and their teachers make an important part. The result of the thesis is to show the possibilities of the work with gifted pupils and the ways to help them. The thesis also should serve as a reflection of how the current state of the gifted pupils education works.
