

ENGLISH ANNOTATION.

This bachelor work deals with the foundation and activities of the Czechoslovak Church in the catholic parish in Přerov nad Labem between 1919 - 1924. It describes the problems resulting from the effort to re-establish the catholic parish in Přerov nad Labem and Semice, after that parish actually went down after the parish priest and the believers all joined the Czechoslovak Church. It deals not only with the pastoral activities of the catholic administrators and parish priests, but also with their endeavour to get back the formerly illegally confiscated possession. Last but not least it also describes the religious disturbances at those days, taking place between the believers of both Churches concerning mentioned problems.
