

# REPORT OF BACHELOR THESIS

Leadership's name:

PhDr. Jitka Malá, Ph.D.

Student's name:

Naif Aouda A Alyoubi

Title of diploma thesis name:

Case study of physiotherapy treatment of arthrosis patient after total hip replacement.

Goal of thesis:

The aim of this thesis is to initially review the anatomy, kinesiology and biomechanics underlying the patient's condition, demonstrate and then analyze and evaluate the therapeutic units that were provide.

1. Volume:

* pages of text	71
* literature	16
* tables, graphs, appendices	17 tables

2. Seriousness of topics:

	above average	average	under average
* theroretical knowledges			X
* input data and their processing		X	
* used methods			X
<i>Used kinesilogic examination, therapeutic approach and literature research aren't adeqaute to bachel</i>			

3. Criteria of thesis classification

	excellent	very good	satisfactory	unsatisfactory
degree of aim of work fulfilment				X
independence of student during process of thesis	x			
<i>Student was really independent, there was no consultation with the teacher.</i>				
logical construction of work				X
<i>A lot of mistakes in the list, work, pictures, tables, results... Mehtodology...</i>				
work with literature and citations				X
<i>There is no citation of literature, list of used literature isn't according norm.</i>				
adequacy of used methods	x		X	X
<i>There are a lot of mistakes in practice part and methodology.</i>				
design of work (text, graphs, tables)				X
<i>No adequate formatting, bad marks of tables, pictures, numbers of chapters, no numbers of apendices.</i>				
stylistic level				X
<i>Not readable text.</i>				

4. Usefulness of the thesis outcomes:

under-average   average   above average

5. Comments and questions to answer:

*I don't recomend thesis for defence, there are too much mistakes and the most important mistake is litarature citation in the first part of thesis.*  
*Methodology isn't designed according normatives and formative structure is no adequate for bachelor thesis.*  
*Kinesilogic examination - past history, examination of standing posture, functional tests, gait examination and the others are too short and without adequate deep.*

6. Recomendation for defence:

yes   no

7. Designed classificatory degree

insufficient

according the defence
