5. Additional commentary and evaluation, questions for defence:

The thesis does fully responds to the requirements for the bachelor thesis. The student processed his work independently, he was able to respond to all complaints and recommendations during the processing of the work. Mr. Ghali Al-Shahri had demonstrated the ability to work independently at the physiotherapy bachelor's level. The work very positively evaluates the careful description of the current state of the patient and recording the effect of therapy from an objective and subjective point of view. Questions: Which applied therapy you felt as the most effective?
