

#### Title

The issue of cycle Routes at the Beskydy mountains.

#### The aim of the work

The aim is to practically verify markings, condition, quality and passability routes due the surface and contour path and create a clear summary of the bike in the designated area Beskyd.

#### A method

Thesis is worked out by comparing the available research

Materials about biking in Beskydy with a field survey of the territory.

#### results

The result of this work is the finding that the marking of cycling routes in the area Beskydy is very decent level. Furthermore, managed to create a clear summary of the bike, from which cyclist can choose the route with respect to its shape, type of wheels and a popular destination road surface.
