

REPORT OF BACHELOR THESIS

Leadership's name:

Mgr. Kateřina Marsáková

Student's name:

Nikolaos Karydis

Title of diploma thesis name:

Physiotherapeutic approach on chondromalacia patellae

Goal of thesis:

In this bachelor thesis is discussed the problematic of physiotherapeutic approach on treatment of chondromalacia patellae as well as the results elaborated after 5 physical therapy sessions with a patient representing most of chondromalacia patellae symptomatology.

1. Volume:

* pages of text	53
* literature	38
* tables, graphs, appendices	18 tables, 6 appendices

2. Seriousness of topics:

	above average	average	under average
* theoretical knowledges	x		
* input data and their processing		x	
* used methods		x	

3. Criteria of thesis classification

	stupeň hodnocení			
	excellent	very good	satisfactory	unsatisfactory
degree of aim of work fulfilment	x			
independence of student during process	x			
logical construction of work	x			
work with literature and citations	x			
adequacy of used methods	x			
design of work (text, graphs, tables)		x		
<i>On pages 32 - 39 there is not the same method of punctuation in the text. On pages 47 - 48 there is bad separation of the tables. Conclusion is not on the separate page. There are page numbers on pages with supplements.</i>				
stylistic level	x			

4. Usefulness of the thesis outcomes:

under average average

5. Comments and questions to answer:

*What do you think about persistent restricted joint play of the knee joint and the patella?
 What do you think about using tape technique for stabilization of the joints?*

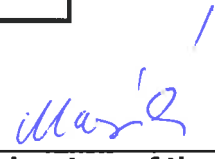

6. Recommendation for defence:

YES	NO
-----	----

7. Designed classificatory degree

excellent
