# Dragonborn, Noonwraith, Leonidas or Ragnarok: Do you know your game?

Hi, I am Czech game studies and ethnology student from Charles University and I need your help!

Currently I am working on a research about folklore in videogames and how gamers remember few folktales, superstition and generally stuff from games.

The basic questions I am asking myself is: Can games teach you something, without actually work for it? Can be folklore remembered and pass on through games?

Please fill this short form and help me finish my research.

Thx and lastly thanks for playing! (I mean filling the questionnaire)

J.H.V.

This hopefully short questionnaire is for everyone who plays games irrespective of platform or just people who love to watch somebody plays.
