

This dissertation deals with hobby education at elementary schools in Litoměřice. It focuses mainly on the activity of after-school centres and school clubs. The main objective of this dissertation is to analyse and compare the offer and potential of elementary schools in Litoměřice in the field of hobby education. The output of this will be the basis for internet presentation on the website of Litoměřice. The basis for this presentation includes the summary and comparison of the offer of hobby groups and also the potential of elementary schools in the field of hobby education (sport, art background, PC equipment....) Nowadays, when elementary schools struggle for each pupil, whatever means of presentation of the elementary school is a significant contribution.
