

## REFERENCE OF BACHELOR THESIS OPPONENT

Study program: SPECIALIZATION IN HEALTH SERVICE - Bachelor degree

Study branch: PHYSIOTHERAPY

Opponent's name:

BSc. Tereza Lavingerová

Author's name:

Filip Hulinský

Supervisor's name:

Mgr. Kateřina Maršáková

The title of the bachelor thesis:

Case study of physiotherapy treatment of a patient with distortion of ankle joint

The aim of the bachelor thesis:

The goal of this Bachelors thesis is to gather and present theoretical knowledge about ankle joint and distortion of this joint. This theoretical information§s with addition of practical examination are collaborated to create patients specific case study

### 1. Scope:

number of pages of the thesis / text	77/85			
number of used sources	54			
others	tables	fig./photos	graphs	supplements
	21	4	0	6

### 2. Formal and language level of thesis:

	excellent	very good	good	unsatisfactory
degree of fulfillment of the goal of the thesis	x			
work with literature, use of citation standard	x			
work editing (text, graphs, pictures, tables)	x			
stylistic level of the text		x		

### 3. Evaluating criteria of the thesis:

	degree of evaluation			
	excellent	very good	good	unsatisfactory
quality of the content and processing the theoretical part	x			
logical structure of the thesis and balance of the chapters	x			
chosen examination techniques, design and their recording	x			
chosen therapeutic techniques, design and their recording	x			
ability to evaluate the intervention and interpretation of the results	x			
level of the work evaluation in relation to current knowledge	x			

### 4. Usefulness of the results of the thesis in practice:

above average    average    below average

### 5. Additional commentary and evaluation, questions for defense:

*The theoretical part was nicely written. With clear explanation and incorporation of evidence supporting literature with right amount of detail when it comes to explaining the mechanisms behind it. When it comes to practical section I would prefer to see more concise text in posture evaluation rather than bullet points. It might have added the reader some links inbetween the findings. Writing down the findings from examination into a table made it nice and clear. Looking back on your therapies and therapeutic process is there something that you would have done differently with the information you have now post therapy ?*

### 6. Statement of the supervisor:

I declare that all referenced sources are properly cited or paraphrased in the thesis.

7. Recommendation for defense:

yes
