

BACHELOR THESIS SUPERVISOR'S REFERENCE

Study program: SPECIALIZATION IN HEALTH SERVICE - Bachelor degree

Study branch: PHYSIOTHERAPY

Author's name:

Filip Hulinský

Supervisor's name:

Mgr. Kateřina Maršáková

The title of the bachelor thesis:

Case study of physiotherapy treatment of a patient with distortion of ankle joint

The aim of the bachelor thesis:

The aim of this thesis is to gather and present theoretical information about distortion of ankle joint, which in the special part of the thesis is used in making of a case study report of a patient with this diagnose.

1. Scope:

number of thesis / text pages	98/77			
number of used sources	54			
number of used sources - English / foreign language	monographs	journals	others	
	3/5	23/0	23/0	
others	tables	fig./photos	graphs	supplements
	21	4	0	6

2. Formal and language level of thesis:

	excellent	very good	good	unsatisfactory
independence of the student in the processing of the thesis	x			
fulfillment degree of the thesis goal	x			
work with literature, use of citation standard	x			
work editing (text, graphs, pictures, tables)		x		
level of the text style	x			

3. Evaluating criteria of the thesis:

	degree of evaluation			
	excellent	very good	good	unsatisfactory
quality of the theoretical content and processing	x			
logical structure of the thesis and balance of chapters	x			
chosen examination techniques, design and their recording	x			
chosen therapeutic techniques, design and their recording	x			
ability to evaluate the intervention and interpretation of the results	x			
level of the work evaluation in relation to current knowledge	x			

4. Usefulness of the thesis results in practice:

above average average below average

5. Additional commentary and evaluation, questions for the defense:

*The bachelor thesis met the set goals. The student properly consulted his thesis during the clinical work placement and after its completion. I appreciate a high number of literary sources. But the article about the ultrasound from 1986 is very outdated. The different font is used in the list of literature and on these pages: 40, 50, 74 (Table 19).
When did your patient undergo hydrotherapy and magnetotherapy?
Why did you check cranial nerves and spinal distances in the patient after ankle distorsion?
What do you think about your patient's prognosis?*

6. Statement of the supervisor:

I declare that all referenced sources are properly cited or paraphrased in the thesis. The thesis was evaluated by the similarity test (SIS - Turnitin), and the similarity report is attached in the electronic documentation of thesis in SIS.

7. Recommendation for the defense:

yes	yes with reservations	no
-----	--------------------------	----

8. Proposed classification level:

excellent
