

In my graduation theses that is called „Witchcraft in the Bible and its consequences in the history“ I deal with phenomenon of witchcraft during the period of peak medieval times and early modern period at the European territory where I will focus on Bohemia and Moravia lands and at the part of USA territory. The goal of this theses is to demonstrate how can be very easy to abuse New testament and Old testament biblical texts for unmagnanimous purposes of individual or of groups that was for example Middle Aged west church institution.
