

This work concentrates on the newly implemented System of timely intervention in the Prague 2 district. I am emphasizing here mainly the system of work of the department of social prevention and social-legal protection of children, with the aim to compare the work processes and evaluation of differences of working with the vulnerable and endangered youth before and after the implementation of the System of early intervention in the Prague 2 district.

The theoretic part concentrates on the description of the starting situation and an introduction of the existing system of work of the department of social prevention and social-legal protection of children and the to-date used organizationally-administrative working processes with the vulnerable and endangered youth within this department. Given the specifics of work in this area I am also aiming to explain the basic terms – the vulnerable and endangered youth, delinquent behavior, and prevention of social-pathological phenomena. In order to provide a full picture, I have also summarized the overview of organizations and preventive activities available in the given area of Prague 2 district. In addition, I am also providing a detailed information on the newly implemented project System of timely intervention the individual phases of the project implementation, its technical resources, structure, goals, and working principles within this system. I am also pointing out the description of the working processes within the system and its organizational and administrative aspects. In addition, I am introducing in a greater detail the key parties taking part in the system and the principle of their mutual cooperation within the Team for youth, including the summary of their activities to date.
