

# **THE LIFE IN PRAHA – KUNRATICE FROM THE POINT OF VIEW OF THREE GENERATIONS**

## **Abstract**

Bachelor's thesis is devoted to resident's view of one quarter of the city. The notion „approach in assessing quality of life and residential satisfaction in life phase“ is discussed in this paper. The research itself is based on case study focusing on the part of the city Praha – Kunratice and its evaluation by three different target groups. On the basis of field survey a structured interviews the differences between target groups are shown.
