

ABSTRACT

Charles University in Prague
Faculty of Pharmacy in Hradec Králové
Department of Social and Clinical pharmacy

Candidate: Monika Brožová
Supervisor: Mgr. Ladislava Valášková, Ph. D.

Title of diploma thesis: A history of manufactory of drugs and medical preparations VII.

Introduction: The work focus on contribution to history of production of pharmaceuticals and curative preparations, history of companies Organofarma and Synfarma, and the filing of a part of specifics in Czech pharmaceutical museum in Kuks.

Objectives: A definition of curative specific, its development and structuring. History of companies Organofarma and Synfarma with the inclusion of production schedule. The filing of a part of HVLP collection in Czech Pharmaceutical Museum in Kuksu by the force of Bach program.

Methods: Elaboration of written and tangible historical sources from Czech Pharmaceutical Museum in Kuks, National Archives in Prague and thematic literature

Findings: A summary of most important government orders in the area of curative specifics and their historical allocation. A depiction of a history of companies Organofarma and Synfarma including visual documentation. A list of preparations manufactured by mentioned firms and their therapeutic application. Listing table of filed HVLP of Czech Pharmaceutical Museum in Kuks from inventory number 4 994 to 6079, 1085 preparations on the whole.

Conclusion: Companies Organofarma and Synfarma arose as manufacturing plants of Connected Pharmaceutical Plants after the socialization of Czechoslovak pharmaceutical industry in the year 1946. They are, though, historical continuators of large pharmaceutical companies of first Czechoslovak Republic
