

Annotation: My thesis is mapping main differences between judo courses and judo clubs and professional judo clubs. It is describing their, facilities, organization, the ways they train, the contents of the coach's work in the classes and in the club. It is also describing the differences in maintaining talents, ways of recruiting new people and it is defining, how judo classes are linked to the judo clubs. In the practical part of my work I am trying to define all noted above through analysis and practical running various classes, clubs and professional judo clubs.

Key words: judo, children, classes, clubs, professional clubs
