Svatoňová, M.: *Actual printmaking trends and art education on primary school* [thesis]  
Prague 2012 – Charles University – College of Education. 105 p. Head of the Master Thesis  
Mgr. Linda Arbanová, PhD.

The theoretical part examines current trends in graphic arts. The work represents traditional, nontraditional, new and copyright techniques. There is an annotated selection of Czech contemporary graphic artists.

The practical part connects current trends in graphic art with teaching graphic arts on primary school. In this section I propose a didactic project, which aims to improve the standard of teaching graphics on primary schools and to align it closer with contemporary graphic arts.
