

REPORT OF BACHELOR THESIS - opponent

Opponent's name:

Mgr. Zuzana Sekaninová

Leadership's name:

Mgr. Klára Hojková

Student's name:

Dimitris Nikolaou

Title of diploma thesis name:

Case study of Physical Therapy approach of patient with bilateral coxarthrosis after surgical operation of total hip replacement

Goal of thesis:

Case report elaboration at given diagnosis. The thesis is presented as a theoretical review of the problematics and a special part with case study of the physiotherapeutic care in patient after the total hip replacement.

1. Volume:

* pages of text	116
* literature	39 (from which 26 are internet sources)
* tables, graphs, appendices	32 tables, 23 figures, 3 supplements

2. Seriousness of topics:

	above average	average	under average
* theroretical knowladges	x		
* input data and their processing	x		
* used methods	x		

3. Criteria of thesis classification

	evaluation			
	excellent	very good	satisfactory	unsatisfactory
degree of aim of work fulfilment	x			
depth of analysis of thesis	x			
logical constutrection of work	x			
work with literature and citations		x		
<i>Student uses in the thesis too many internet sources and there were some small mistakes in appropriate citations.</i>				
adequacy of used methods	x			
design of work (text, graphs, tablels)	x			
stylistic level		x		

4. Usefulness of the thesis outcomes:

under average average

Submitted work fullfils the requirements for the bachelor thesis without any reserves.

5. Comments and questions to answer:

In theoretical part I would suggest a deeper description of rules of loading the joint after the hip replacement depending on the healing process and the type of hip replacement implants. What are the basic principles of it?

6. Recommendation for defence:

YES

NO

7. Designed classificatory degree

excellent

according defence
