

Abstract

The aim of the thesis “Legal regulation of the protection of woodspecies“ is to summarize the main instruments of the Czech law to ensuring the protection of woody plants. The thesis focuses mainly on the current legislation in the Czech Republic. The thesis is divided into seven chapters. The first part of the thesis defines the woody plant in the meaning of law, its functions and questions of its protection. The other parts of the thesis describe legal regulation of woody plants in a lot of different czech statutes. In the conclusion were made some suggestions, how to improve the current legal regulation of woody plants in the Czech Republic.
