

The theoretical part of the bachelor's thesis „Transfer" of Germans and Postoloprty in 1945“ is devoted to the relations between Czechs and Germans in the pre-war period and their outcome after the Second World War, i.e. the expulsion of Germans from Czechoslovakia. The second part of the thesis - the practical part - is focused on a specific area (the municipality of Postoloprty) in which the acts of violence against the German population took place. In this part the thesis is mainly based on the work with testimonies of witnesses who were willing to share their experiences and memories. The final part of the thesis is devoted to the investigation from 1947 and finally the thesis deals in brief with the modern investigation.
