## Opponent´s review of diploma thesis

Diploma thesis: **Herpes zoster**
Name of student: **Ioanna Papadopoulou**
Reviewer: **Miloslav Hronek, Assoc. Prof., PharmD, Ph.D.**

Year defence: **2013**

The diploma thesis "Herpes zoster" is written on 44 pages and includes 7 pictures with 84 references.

Type of thesis: **a bibliographic search.**
Objective of the thesis: **fulfilled**
Language and graphic level: **good**
Processing of theory: **good**
Discussion and conclusion: **good**
Theoretical and practical contribution: **good**

**Comments to evaluation of thesis:**

Because the program for the evaluation of similarity in the University System Information Study found in previous version by the protocol of 20% with student theses Similar Chrysanthi Papadopoulou Titled Herpes zoster therapy: comparison of acyclovir with valacyclovir in immunocompetent adults prepared on the Faculty of Pharmacy in Bratislava, student rewrote his work, corrected mistakes, some passages deleted and replaced with new formulations or text. She completed a thesis with new parts as e.g. Herpes information diet, Home remedies for herpes zoster.
From a formal point of view in the work missing list of pictures, incomplete citation *The American Journal of Medicine Issue 1, Part 1, 1982;73:7-13,* at citations a missing title of the article from the internet.
Program for control of similarities with this work did not find any correspondence with other works.
Since the student has fulfilled all the conditions imposed on a thesis I recommend it for defense. Classification below follows the range and because of the need for correction of the previous version.

**Questions:**
1. In your diploma thesis it is described "Patients with herpes zoster should avoid foods rich in oils, fats, carbohydrates and sugar." It is true that contain low amounts of vitamins. Can you answer why sugar intake is unfavourable for these patients?

2. What is incidence of herpes zoster in Greece?

The proposed classification: **good.**
