

Annotation

Diploma thesis *The new shape of journalism in the magazine Respekt after format change* deals with progress of news magazine Respekt after transformation to colored magazine. However, it is not described the transformation itself but it deals with another five years after format change to research new shape of journalism in news magazine Respekt. The structure of topics is compared to find out the influence to circulation. The changes are analysed in three parts of my thesis. It is formed by theory, memories of participants and analytical part including analysis media agenda of Respekt. Results of the analysis are put into clear graphs and tables. The thesis is comprehensive view of news magazine Respekt passed for more than five years after his transformation.
