IEPS – International Economic and Political Studies, Faculty of Social Sciences, Charles University

Title of the thesis:	Montenegro's accession to European Union
Author of the thesis:	Mijo Ivanović

Remark: It is a standard at the FSV UK that the Referee's Report is at least 500 words long. In case you will assess the thesis as "non-defendable", please explain the concrete reasons for that in detail.

SUMMARY OF POINTS AWARDED (for details, see below):

TOTAL POINTS (max. 100)	63
The proposed grade (1-2-3-4)	2

You can even use a decimal point (e.g. giving the grade of 2.5 for 60 points).

Comments of the referee on the thesis highlights and shortcomings (following the 5 numbered aspects of your assessment indicated below).

1) Theoretical background:

The author uses new institutionalism research framework to prove the thesis hypothesis. In this context, it is not clear, why the EU as model of regional integration has been mentioned. The author should elaborate more on the link between theoretical approach and examined topic in the theoretical part of the thesis.

2) Contribution:

The issue chosen for the thesis is very interesting and topical. The author presents original ideas to some extent, but the analysis of the examined problem should be more comprehensive and profound. The author is able to draw relevant conclusions based on the theory and empirical sources.

3) Methods:

The hypotheses are relatively well formulated and relevant. However, the author should focus more on the explanation of analytical tools used.

4) Literature:

The author commanded recent and relevant primary and secondary sources. However, the analysis of them as well as state of art analysis is non-existent. The author again was not able to sort out relevant sources. He puts primary sources (e.g. Treaty establishing a constitution for Europe) into the section of secondary sources.

5) Manuscript form:

The thesis is structured accordingly. The author uses academic language and style of writing; however, using bullet points so extensively should be avoided.

DATE OF EVALUATION: 12. 6. 2015

Referee Signature

The referee should give comments to the following requirements:

1) THEORETICAL BACKGROUND: Can you recognize that the thesis was guided by some **theoretical fundamentals** relevant for this thesis topic? Were some important theoretical concepts omitted? Was the theory used in the thesis consistently incorporated with the topic and hypotheses tested?

Strong Average Weak
20 10 0 points

2) CONTRIBUTION: Evaluate if the author presents **original ideas** on the topic and aims at demonstrating **critical thinking** and ability to draw conclusions based on the knowledge of relevant theory and relevant empirical material. Is there a distinct **value added** of the thesis (relative to knowledge of a university-educated person interested in given topic)? Did the author explain **why** the observed phenomena occurred? Were the policy implications well founded?

Strong Average Weak
20 10 0 points

3) METHODS: Are the **hypotheses** for this study clearly stated, allowing their further verification and testing? Are the theoretical explanations, empirical material and **analytical tools** used in the thesis relevant to the research question being investigated, and adequate to the aspiration level of the study? Is the thesis **topic comprehensively analyzed** and does the thesis not make trivial or irrelevant detours off the main body stated in the thesis proposal? More than 10 points signal an exceptional work, **which requires your explanation "why" it is so**.

Strong Average Weak
20 10 0 points

4) LITERATURE REVIEW: The thesis demonstrates author's full understanding and **command of recent literature**. The author quotes relevant literature in a proper way and disposes with a representative bibliography. (Remark: references to Wikipedia, websites and newspaper articles are a sign of **poor research**). If they dominate you cannot give more than 8 points. References to books published by prestigious publishers and articles in renowned journals give much better impression.

Strong Average Weak
20 10 0 points

5) MANUSCRIPT FORM: The thesis is **clear and well structured**. The author uses appropriate language and style, including academic **format** for quotations, graphs and tables. The text effectively refers to graphs and tables, is easily readable and **stimulates thinking**.
