

Annotation

The bachelor thesis outlines the opportunity to find an employment in Turnov and its surroundings for people suffering from mental illness. The area of mental health and illness, stigmatisation in employment, unemployment, legislation concerning mentally handicapped people in a labour market and social services provided to them will be specified in this bachelor thesis. The part of research of this bachelor thesis concerns employers in Turnov and its surroundings, who could possibly employ people with mental handicap. The part of research also surveys an approach of corporations to handicapped people.
