Title: Analysis of scoring oppoturnities in matches played by four selected teams during WWFC 2013.

Intention: Purpose of the thesis is to analyse scoring oppoturnities from WWFC 2013 matches of selected teams Sweden, Finland, Switzerland and Czech Republic in a group and in playoffs.

Methodology: The main method to build up the thesis is an analysis of succesfully shooted scoring chances of selected teams in WWFC 2013 matches, to put them into statistics and to evaluate them. Another method is to collect the databasis from literary sources and to process them into the theoretical part.

Results: Outlines of the thesis are knowledges about the shooting and successful scoring chances of selected teams in matches in the group and in playoffs. Another outlines are: characteristics of shooting in case of its amount, types, where they were shooted from, how were they shooted and in case of the shooting situation.
