

## **Abstract**

**Title of the Bachelor's thesis:** Match analysis of the elite tennis players on grass and clay court

**Aim of the Bachelor's thesis:** The aim is to compare the game tactics of the selected elite players on clay and grass court.

**Methods:** An indirect observation and the TennisMatch program were used for recording and evaluating the tactics of the selected players.

**Results:** The results indicate the differences in the end of kick-off by winners blow and the mistakes on clay and grass. We compare the game play of the individual players on the both surfaces of the tennis court.

**Keywords:** tennis, tactics, zone, clay, grass
