Graphical processing for the thesis very good.

Mentor comments to thesis and student approach:

Mr.Papadopoulos was very active in management of his project. He founded co-operating physician, made a methodology and tried to interpret data. He worked single handed. He needs to improve himself in using clinical pharmacy and pharmaceutical care knowledge by preparing and management of his thesis. I believe that he learned a lot how to do pharmaeidemiological project and hot to joint it with theory.

Evaluation of diploma thesis: very good, to defense: recommended
