

POSUDEK VEDOUCÍHO BAKALÁŘSKÉ DIPLOMOVÉ PRÁCE

SUPERVISOR'S REPORT OF THE BACHELOR THESIS

Supervisor's name:

Mgr. Helena Vomáčková

Student's name:

Dominic Kalafatis

The title of the bachelor thesis:

Case study: physiotherapy treatment of a patient with Bell's palsy

The goal of the bachelor thesis:

The goal of special part of this thesis is the case study of the patient with diagnosis - peripheral facial palsy. The aim of the general part is to summarise the theoretical information about anatomy and kinesiology of the face expressions as well as classification, symptoms, examination and treatment of facial nerve palsy.

1. Volume:

pages of text	98
number of references	28
figures, tables, graphs, appendices	33, 12, 0, 1

2. Seriousness of topics:

	above average	average	under average
theoretical knowledge		X	
input data and their processing	X		
used methods	X		

3. Criteria of thesis classification:

	degree of evaluation			
	excellent	very good	satisfactory	unsatisfactory
degree of aim of work fulfilment			X	
<i>Definition of the aims of the thesis is missing in the Methodology part / it is only mentioned in Introduction.</i>				
independence of student during process of thesis		X		
<i>Student worked independently, he was able to handle all comments and suggestions in to the process of the thesis.</i>				
logical construction of work		X		
<i>Numbering of the Special part (chapter 3) is too much detailed.</i>				
work with literature and citations		X		
<i>Citations are processed according to the current standards of APA.</i>				
adequacy of used methods		X		
<i>Student used appropriate therapeutic approaches.</i>				
design of work (text, graphs, tables)	X			
stylistic level	X			

4. Usefulness of the thesis outcomes:

under average

average

5. Comments and questions to answer:

Question: The applied electrostimulation had always the same features in each therapy. Do you think, that was necessary to apply the electrostimulation to all facial muscles, even the patient was improving therapy to therapy? The student has demonstrated that he is able to work independently with the patient. His theoretical knowledge and practical experience are very good. Despite the comments stated above the work has logical structure, it meets the demands of the bachelor thesis.

6. Recommendation for defence:

NO

YES

7. Designed classificatory degree

EXCELLENT - VERY GOOD (according to student's presentation/defence)

Date: in Prague 20.5.2014
