Mentor comments to thesis and student approach:

Student prepared an useful diploma thesis with a lot of interesting information on the health care system general and esp. on the system of prescribing of medicinal products in Greece. There are mainly only e-prescriptions which are used in Greece nowadays and this rewarding experience can serve as good inspiration for the Czech republic now. Panagiotis was working on his diploma thesis whole time very independently, conscientiously and with large elation. I was very satisfied with his work.

**Evaluation of diploma thesis: excellent, to defense: recommended**
