

Title of the Master 's Thesis: „7 habits - action research in the primary school“

Summary:

The topic of my diploma thesis is „7 habits - action research in the primary school“. The text is divided into two parts. In the first part I have defined the basic terminology used in the work and then I have focused on the classification of 7 habits. I have concentrated on the description of 7 habits of Happy kids and critically discuss about the implications of learning them in the primary school. In the practical part I have template to connect the information about 7 habits of Happy kids and programme The Leader in Me with their didactic usage in the lessons with a group.

Key words: habits, self – management, leadership, action research, The Leader in Me
