

Bachelor's thesis called „Television entertainment in 2013“ deals with trends, basic signs and kinds of TV shows belonging to the genre of television entertainment (TV fun) broadcasted in Czech republic.

The first and theoretical chapter's goal is to outline some essential terms related to the genre and television entertainment. The rest of the work has been devoted to the actual analysis of individual programs. The work is divided into Czech and foreign series, Czech and foreign game shows, reality television and Czech and foreign entertainment programs.
