

ABSTRACT

Title of thesis: Comparison of indicators of the game performance in the aspects of performance development for girls teams U15 - U17

Aims of thesis: The aim of my thesis is to compare game performance indicators for the girls basketball team Sokol Nusle. Results from the seasons 2011/2012 and 2013/2014 are examined. The minor goal of the thesis is to compare indicators of the game performance features of three chosen players.

Methods of thesis: The main method is direct registered observation using the „Basketball scoring sheets". We analysed sheets and we compared the achieved values.

Result of thesis: Based on our study, we found that the observed team Sokol Nusle is changing gaming performance indicators in a positive way.

Keywords: team game performance, indicators, shooting success, comparison, individual game activities
