Pharmacy

Mentor evaluation of diploma thesis

Student: **Mavrovouniotis Konstantinos**

Mentor of the thesis: Prof. RNDr. Jiří Viček, CSc.

Year of the defence: 2016

Title of the thesis:

The analysis of pharmacotherapy in patients suffering from hyperlipidemia

The topic of the thesis was chosen by student

Work with literature very good.

Language skills very good.

Student invention excellent.

Student worked independently.

Problems and issues were solved independently with mentor help.

Work in the lab was good.

Results interpretation correct with major corrections by mentor.

Processing of thesis was major revision of mentor was necessary.

Graphical processing for the thesis very good.

Mentor comments to thesis and student approach:

Student was enthusiastic in the topic of diploma work, but he didn't follow knowledge of clinical pharmacy. He tried to manage diploma work independently but sometimes he had not enough experience to do it and he didn't follow my recommendation regarding literature selection (on the start he used tertiary ones only, he didn't collect all data from patient etc. As well he has troubles to follow aim, what was define on the start of project. But he was flexible and able to change different thinks according my comments (tablets, graphs, discussion etc.). I believe that during this project he received any Idea how to manage scientific project

Evaluation of diploma thesis: very good, to defense: recommended

In Hradec Kralove 27.5.2016
