Title of diploma thesis: Signs of the temporolimbic dysfunction in epileptics

The diploma thesis deals with signs of the temporolimbic dysfunction in epileptics and it is divided into the two main parts. The theoretical part summarized the issue of the temporo–limbic dysfunction. Then a survey of the basic knowledge of epilepsy with concentration on characteristic of temporal epilepsy is given. The practical part is targeted to the questionnaire chosen evaluation and of the working hypotheses confirmation.

The main aim of the diploma thesis was the incidence of the epilepsy spectrum disorder evaluation.

Keywords: temporal lobe, limbic system, temporal epilepsy, temporolimbic dysfunction, questionnaire assessment
