

The diploma work is bent on acquaintance with possibilities project education on primary school. The theme Universe gives possibility after - disclose signal mystery, peep to the unrecognized. It is going above all about meditation and comprehension ours pertinence to the big complex, found our seats all over context ours existences. We are erased out of property, without understanding our seats in life and we have feeling of eradication. Primarily the necessity acquaint pupils with ours accessories to that, what us encompass and where belong to, stood out to the front in preparation project. It went about understanding and retrieval personal individual ways to this theme.

I tried collect information, which were needed to creation project, at the first parts of the diploma work. The second part is specialized on meet project, which oneself created for a period of three years, 011 primary school, and at its analyse.
