

## **Abstract (in English)**

I focused on analysing a relationship between Josef Hlávka and Karel Matuš in my bachelor thesis. In the first chapters I deal with autobiography of these men, where I specifically focus on life fates of Karel Matuš, which aren't known as well as Hlavka's are. The biggest part of this bachelor thesis analyses the selected letters of these friends, mentioned above, from June 1888 to February 1908, where I concentrated on passion of both men to push up the Czech nation a little bit higher. For this part the funds of Josef Hlávka and fund of Karel Matuš were used. These are placed in the Literary archive of Memorial of National Writing.
